

**FOR IMMEDIATE RELEASE**

## **NARA Appoints Prewitt to Board of Directors**

*July 11, 2013 -- Dallas, Texas* – The National Aircraft Resale Association (NARA) announced that Sabrina M. Prewitt has been appointed to the NARA Board of Directors. Daughter of founding NARA member and industry icon, Jack Prewitt, Sabrina Prewitt brings more than 30 years of business aircraft transaction experience to the NARA board.

Sabrina has been elected to fill the recently vacated board member seat of Ben Murray and will hold the position for the remaining 2013/2014 term.

“We value Sabrina’s wealth of experience and all the talent she brings to the NARA board,” stated Brad Harris, Chairman of the NARA Board of Directors. “I am excited to be working closely with her to carry out our NARA mission of making this a premier organization that is recognized for its professional ethics and upholding the highest standards among the aircraft dealer/broker network.”

As Senior Vice President at Jack Prewitt & Associates, Inc., Sabrina was born into the aviation industry. She spent countless hours as a young girl with her father, Jack Prewitt, at the local airports, radio shops and completion centers. After her formal education, Sabrina came to work with the family business and has worked side by side her father in all aspects of corporate aircraft sales. Today her focus has been primarily on the administrative and operational side of the business and most recently, she oversaw the construction of the company’s new corporate headquarters, Aviation Place in Colleyville, Texas. Sabrina is a mother and grandmother and she enjoys spending her free time camping, gardening and quilting.

“Aviation is really my life. We’re a global community with a deep-rooted love for culture, travel, and exploration”, commented Sabrina Prewitt. “I am very proud to serve on the NARA Board of Directors, where I will invest my passion and love for the industry.”

### **ABOUT NARA**

NARA is a professional trade association comprised of selected aircraft sales and brokerage businesses and aircraft support/services companies that adhere to the highest professional standards. Promoting the growth and public understanding of the aircraft resale industry, NARA’s members abide by an elite 14-point Code of Ethics that provides standards of business conduct regarding aircraft transactions. For more information about NARA, its members and its code of ethics, visit the NARA website at [www.nara-dealers.com](http://www.nara-dealers.com)
